Guidelines on Using Elected Officials as Speakers

- An invitation to an elected official to speak at any chapter event must first be cleared by the chapter office, the board of directors and the chair of the PA LAC.
- Any chapter event that features an elected official as a speaker must avoid all appearances that the event, chapter or volunteers are attempting to influence the outcome of any election.
- Invitations to elected officials shall always state that the intent of the program is to provide information to members on legislation or programs important to community association living and is not intended to be a political forum. The invitation shall also state the CAI does not endorse candidates in any election.
- The program should be focused at all times on the issues important to the membership of CAI and the goals of the chapter.
- The chapter Speaker Policy shall apply to elected officials.

Adopted by the board of directors, March 29, 2006.
